August 22, 2014 **Rockfall Mitigation & Reconstruction** ID PFH 26-1(1)

Highway 75 between mileposts 205.4 and 206.7 at the "**Narrows**"

Construction work is continuing at a steady pace through the Narrows. Rockfall work has completed through Section 4 and additional work on bolts and dowels, contoured wire mesh and attenuator systems are moving ahead.

Construction of MSE wall 200 continues to progress with over a quarter of the wall installed. Night work is continuing downriver on excavation of MSE wall 300, culvert pipe replacements, and installation of keyed rip rap. Test panels for the Sculpted Shotcrete have been produced in preparation for Shotcrete production.

Closures are not in effect. Closures are anticipated to resume after September 15th.

Expect minor delays of up to 15 minutes throughout the day and night. The project is limited to one-lane of traffic with signal lights in the non working hours and over the weekends. Night shift are currently running from 9:00 p.m. to 9:00 a.m. Monday through Thursday.

There will be no work from 6:00 p.m. Friday through 6:00 a.m. Monday over the regular weekends.

G2B company sculpting the architectural test panels for the sculpted shotcrete facing of the MSE walls.
