Project News

JULY 4, 2016

The contractor wrapped up work last week to verify the location of the existing footings. No work is scheduled for this upcoming week. Therefore, expect the bridge and surrounding trails to be fully open to visitors this week. The contractor is scheduled to begin installation of water diversion barriers and a temporary work bridge next week. Please be prepared for temporary, intermittent closures of the bridge during that time.

Notes

- Expect intermittent closure of the bridge and surrounding trails as work progresses
- Phase 1, in water work, is scheduled to be completed by July 15th
- Phase 2, removal and replacement of bridge will not begin until after Sept 5th
