

MANOKOTAK HEIGHTS ROAD RECONSTRUCTION

MAY 19, 2014

PROJECT INFORMATION:

Contractor

Ridge Contracting
Inc. (RCI)

Start Date

April 2013

Completion Date

Early Fall 2014

Construction

The Manokotak Heights Road Reconstruction project is going deeper into production and working towards a completion date early fall 2014. The Ridge Contracting, Inc. crew is working hard to making the conditions safe leaving spring thaw, roadway conditions have improved substantially.

Knud Martin Speaking with Manokotak's Class of 2014

allow for drainage away from the roadbed.

- Travelers should continue to expect delays of up to 30 minutes maximum to get passage through the work zone. Traveling public is asked to not travel without a pilot car escort through the project. Walking through the site is not permitted due to safety, all walkers are encouraged to find a ride prior to travelling through the project.
- In the photo above Knud Martin explains the importance of safety in construction zone as Summer Break starts for this year. Remember to keep clear of operating equipment and to avoid having activities in active construction zones. Also, we are asking young adults to keep an eye out for little ones and to make sure that they are kept away from ongoing construction activities.

Project News

2014 SEASON

- Throughout the project end wraps are currently being placed on the roadway shoulders. The end wraps will stabilize and widen the roadway.
- From the east end traffic light to Manokotak Heights new culvert placement will start this week to
