Project News

JULY 18, 2016

Fish passage structures will begin toward the end of this week and carry through into August. Tomorrow, July 19th we have the pleasure of welcoming Tim Hess (Associate Administrator), Sandy Otto (WFL Division Director), Brent Coe (Project Management Branch Chief), and Brian Allen (Tribal Transportation Program Delivery Manager) to the island. They will be touring past and present projects as well as meeting with tribal folks in Craig on Wednesday.

Notes

- Pictured above is the CAT D7 bulldozer with a grid roller attachment on the back side. This piece of equipment is used to level and compact embankment as dump trucks unload their rock into piles as shown on the left.
- Please use caution when driving through the project as the site will change day to day.
