(907) 629-4110

Sean Wheeler

Inspector

[sean.wheeler@dot.gov](mailto:sean.wheeler@dot.gov)

## Project News

JULY 26, 2016

Fish passage structures are underway, starting with the 67+00 structure and finishing the last three before the end of August. SWPPP walkthroughs are still occurring on Tuesdays and heavy rain events. Three of six monitoring plates are installed and two readings have been taken so far.

## Notes

- Pictured above is one of six settlement plate assemblies to measure displacement over time. Readings are taken at specified intervals to determine how much the road is settling over the duration of the project and beyond.
- Please use caution when driving through the project as the site will change day to day.
