## Project News

AUGUST 22, 2016

The four fish passage structures on this project are installed and conveying water. Work on the project will shift to subgrade excavation/embankment as well as rock blasting. Touch up work on the fish pipes will take place this week and the in-water work window lapses at the end of the month.

## Notes

- Pictured above is fish passage four construction. Two excavators were used to backfill material around the pipe as well as infill material within the pipe.
- Please use caution when driving through the project as the site will change day to day.
