June 27, 2017

WFLHD

Bill Welton

Project Engineer

Bill.Welton@dot.gov

(907) 629-4110

Sean Wheeler

Inspector

sean.wheeler@dot.gov

Project News

SEPTEMBER 12, 2016

Rain was the story of last week as SRI worked on the biggest fill of the project near station 115+00. A rock crusher was hauled on-site allowing SRI to produce crushed rock to bring them up to subgrade. Drilling and blasting will continue this week near the 123+00 area. A SWPPP inspection will take place on Tuesday and as needed throughout the week.

Notes

- Pictured above is a photograph looking down station at fish passage three. Material was placed overtop of the pipe to prevent damage when hauling.
- Please use caution when driving through the project as the site will change day to day.
