Project News

SEPTEMBER 20, 2016

As winter shutdown approaches, Southeast Roadbuilders plans to bring in an additional crew to expedite work. Starting next week, a pipe crew will work to place cross-drain pipes in addition to drilling, blasting, and hauling that will continue as normal. SRI plans to work into the middle of November this year, shutting down for the year prior to the Thanksgiving holiday.

Notes

- A loader and an excavator are being used to clean up debris from the road following blasting. Drilling and blasting will continue throughout the week.
- Please use caution when driving through the project as the site will change day to day.
