Rockfall Mitigation & Reconstruction

ID PFH 26-1(1)

Highway 75 between mileposts 205.4 and 206.7 at the “Narrows”

On-site work is scheduled to start on the next project on or about July 22, 2013. Once work does start up there will be minor delays of up to 15 minutes at a time during the working day. There will also be one lane traffic with signal lights controlling traffic during non-working hours.

You may start to see equipment showing up on the project this week. As we get closer to the work starting, additional updates will be sent out.

108+00 (Section 12) Rockfall Attenuator installed last year.

Road Closure Information

Week of July 14, 2013

No Closures this week

No Delays this week
