

Weekly Newsletter

September 5, 2013 **Rockfall Mitigation & Reconstruction** ID PFH 26-1(1)

Highway 75 between mileposts 205.4 and 206.7 at the “**Narrows**”

On-site work will continue with drilling support anchors for the various rockfall mesh systems. Production drilling and installation for both rock bolts and rock dowels is underway. The processing and removal of material generated from scaling work will continue.

Expect minor delays of up to 15 minutes at a time during the working day. There will also be one lane traffic with signal lights controlling traffic during non-working hours.

Be advised - the contractor is planning to work on Saturday, September 7th. Expect minor delays up to 15 minutes.

Testing a performance rock bolt in Section 5
