Reconstruction

ID PFH 26(3)

Highway 75 between mileposts 206.7 and 207.9 through “Pebble Beach”

The excavation of the Pebble Beach Cut will be completed for the season at the end of **this** week. Crews will then be focused on cleanup and winterization of both the Cut and Holman sites.

Several of the haul trucks may continue taking cleanup material to the Holman Creek Waste Area (MP 214.5) Monday through Thursday, 8:00 am—6:00 pm.

The project is still limited to one lane of traffic at all times of the day.

During work hours, Monday through Friday, continue to expect delays of up to 15-minutes while traffic is being controlled by flaggers between 7:30 AM - 6:00pm.

Delays will be limited to no more than 5-minutes during non working hours, at night and on weekends, with signals controlling traffic.

Please be very cautious and reduce your speed when traveling through the work zone as it is very narrow and patches of frost are remaining on the road throughout the day.

Thank You
