

ID PFH 60(2)

**Project Description**

This project replaces the existing bridge, which was constructed in 1934. It is in poor condition and not meeting today's bridge design standards. The new bridge will span 304-feet, as a one-lane asymmetrical suspension bridge, that includes a single steel tower 75-foot tall on the north end of the river. The project is expected to last until next winter of 2017.

**Project Location**

Located on the Salmon River Road, 14 miles east of Riggins, ID.

**Road Surface Conditions**

The current road surface is dirt, which can be expected the same throughout construction, with normal signs of construction activity. Remain cautious of the road's narrow condition, and the presence of workers and equipment.

**Current and Upcoming Work**

Drilling ground anchors at the north abutment.  
Building temporary structures on the north slope (uphill) for suspension cable anchorage.  
Mobilization of south crane.

**Road and River Traffic Delays**

See page 2

Micropile operation on the north abutment.

### Road and River Traffic Delays

Public traffic and river users can expect the typical schedule in the table (**right**). The road and river is open to traffic during all weekends, holidays, and special events (**table below**). Advanced notice will be provided in the event of night closures. Short term river closures are only permitted for planned rock excavation activities, in which advanced notice would be provided, or for emergency situations. In the event of a short closure, river users can expect to see warning signs and flaggers posted upstream and downstream of the work. River passage will resume when the risk is mitigated and passage is deemed safe.

Construction personnel are aware of the frequent and popular river-use—

*Please be aware of construction activity during all passage through the project for a safe and fun trip!*

Typical Schedule (Mountain Standard Time)	
6:00 a.m. to 8:00 a.m.	Open Road and River
8:00 a.m. to 4:00 p.m.	30 minute delays permitted
4:00 p.m. to 5:00 p.m.	Open Road and River
5:00 p.m. to 10:00 p.m.	30 minute delays permitted
10:00 p.m. to 6:00 a.m.	8 hour delays permitted with road open to traffic on even hours (12:00 a.m., 2:00 a.m., and 4:00 a.m.)

Weekends	All day (24 hours)
Holidays	All day (24 hours) Do not perform construction operations which interfere with public travel on the roadway between noon the preceding day and 6:00 am the following day or as otherwise described in this section, unless approved by the CO
Woman with Bait Tournament (February-March) <sup>1</sup>	5:30 am to 8:00 am 11:30 am to 1:00 pm 5:30 pm to 8:00 pm 8:00 pm to 5:30 am
Jet Boat Races (April) <sup>1</sup> Riggins Rodeo (May) <sup>1</sup> Big Water Blowout (June) <sup>1</sup>	All day (24 hours) Friday before event open road at 4:00 pm and return to normal schedule Monday 6:00 am
Hot Summer Nights (July) Salmon River Road Marathon (September)	Night before event open road at 4:00 pm and return to normal schedule 6:00 am day after event ends

**Expect Night closures the week of August 1.**

Please Note:

A section of roadway on the south side will have 10' width once the 2nd crane is mobilized to the project. Use available turnouts for safe yielding onto the bridge.

Micropile drill bit: 12" diameter w/carbide button bit

### Cont'd

When flaggers are not present in the daytime, normal yielding procedures are in effect when crossing the bridge. Workers may still be active on the jobsite.
