

MILNER LOOP ROAD

ID BLM BUR 16176 (1)

Twin Falls and Cassia Counties, Idaho

WEEK OF NOVEMBER 15, 2014

Notice:

None.

Traffic Control:

From 6:00 a.m. Monday to 4:00 p.m. Friday half of Milner Loop Road including the associated approach roads is closed to public traffic. Trout Point Road will be used as the closure point. Work performed on the open portion of the road will be completed with less than 15 minute delays.

Milner Loop Road Operations

This week's weather events have slowed the impressive pace of the work in the Milner Loop Recreation Area. Although the delivery and placement of the roadway aggregate was stopped on Thursday, Debco Construction was able to cover the majority of the mainline grade before terminating aggregate placement operations. The focus of the work then shifted entirely to other operations that could be completed and the installation of the culverts was completed and all but one of the cattle guards was installed. Scheduled preparation and turf establishment operations were also postponed due to the weather.

Materials Processing

All operations at the pit on Hwy 27 have ceased and will restart when the weather allows.

Contract No. DTFH7014C00021
Awarded To: Debco Construction
217 College Ave. #5.
Orofino, Idaho 83544
