Project Description

Rimini Road is located 10 miles west of Helena, MT off of Highway 12. The project begins at the intersection with Highway 12 and extends 6.25 miles south to the intersection with Chessman Reservoir Road. Project improvements include reconstructing three bridges, asphalt paving, guardrail updates, and realignment of 2,000 ft of Ten Mile Creek away from the roadway. Lewis and Clark County will assume maintenance duties upon completion of the project.

Road Surface conditions

The current road surface is existing compacted gravel with minor pot holes. There are no areas with active construction.

Current and Upcoming Work

The contractor, Debco Construction, is currently staging equipment and preparing for survey and erosion control. Clearing and grubbing will begin May 4, followed by construction of bridge detours and roadway excavation.

Traffic Delays

There are no traffic delays at this time. There may be laborers working on the road shoulder, please drive safe and be courteous.

Beginning May 4th, expect 30 minute delays, Monday through Friday, 7am to 6pm. Traffic will be controlled by flaggers and pilot car. Please follow the newsletter for future updates.

The Storm Water Pollution Prevention Plan (SWPPP) for this project is available for viewing at the Project Office of the Contractor, located at the staging area next to Ten Mile Water Treatment Plant.

Sample road condition at intersection of Rimini Road and HW 12.

Sample road condition approx. 3.28 miles south of HW 12.
