AGNESS ROAD SLIDE REPAIR AT FSR 3348 **NEWSLETTER**

Construction Activities for the past week that started on September 23, 2013

Johnson Rock has completed constructing the RSS Wall at Forest Service Road 3348 MP 0.2. They installed the concrete barrier and traffic signals at Forest Service Road 33 MP 47.2 for the one-lane closure and are working on the riprap lined ditches at Forest Service Road 3348 MP 0.2.

Construction Scheduled for the week beginning on September 30, 2013

Next week Johnson Rock will finish constructing the riprap lined ditches at FSR 3348 MP 0.2 on Monday. Johnson Rock will not place base aggregate to complete this site before moving on to the next site at Forest Service Road 33 MP 47.2. Johnson Rock wants to take advantage of the weather and construct the wall at this site before completing the site at Forest Service Road 3348. Tuesday Johnson Rock will start excavation for the RSS Wall at Forest Service Road 33 MP 47.2.

Traffic information on next page.

Traffic Information

Forest Road 3348 will be closed until the end of October. The existing one-lane closure at Forest Service Road 33 MP 47.2, due to the slide, is now operating with Traffic signals at night and with flaggers controlling traffic during the day while the contractor is working. Be aware of trucks and equipment when traveling Forest Road 33 near the project.
