Construction Activities

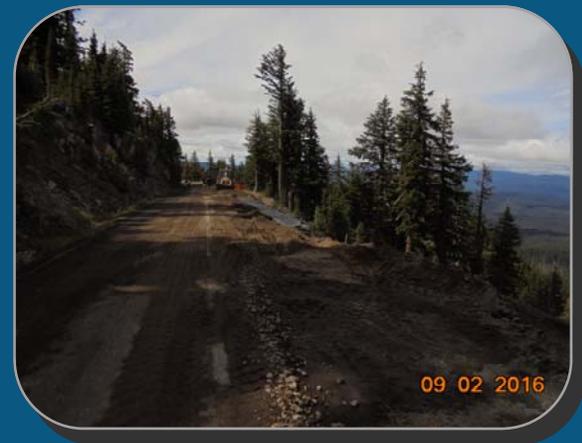

This week, the stone masons continue constructing new guardwall.

On West Rim Drive Tidewater continues with road work. They installed gabion baskets for the edge stabilizations between Union Grade and Watchman and placed recycled aggregate base between Watchman and North Junction.

Next week Guinett will finish the stone masonry wall at Glacial Valley and start installing the curb there.

Tidewater will start emulsified asphalt treated aggregate base between Watchman and North Junction. They have 1 more week of night work to finish installing the culverts.

Traffic Information:

- ⇒ West Rim Drive will have one-lane closure and night work.
- ⇒ At Rim Village, the handicap ramps will be closed.

SAFETY IS OUR #1 PRIORITY!

We apologize for any delays due to construction.
