

GRANITE HILL HIGHWAY RECONSTRUCTION

WEEKLY NEWSLETTER

July 08, 2016

Construction Activities and Upcoming Work:

The Asphalt Concrete Pavement Paving was completed this week, including the approach roads designated to be paved. Work on the shoulder rock also began on the lower section.

Next week the rest of the project is set to get all the shoulder work completed. The roadway stripping is schedule for next Thursday and Friday.

Most of the work on the project is scheduled to be complete by July 15th with only minor items of work possibly remaining.

Completed Paving on the upper section

Shoulder work on the lower section

Traffic Guidance:

The Contractor's normal work schedule is Monday thru Friday.
Various lane closures occur to accommodate the construction activities.
Please use caution in the construction zones. Expect minor traffic delays.
