

QUARTZ CREEK CULVERT REPLACEMENT PROJECT NEWSLETTER

Paul Akehurst – Project Engineer
Western Federal Lands Highway Division
Federal Highway Administration

JRT Construction, LLC

For the week of August 22 to 26, 2016

Completed Work:

This week the contractor completed the concrete pour on the footings for the arch culvert at station 36+22.77. Contractor formed the stem walls for the arch pipe. Also completed was the installation of rock weirs, bank stones and the stream bed material in a 20 ft section of the 144-inch culvert at station 21+00.

Upcoming Work:

The contractor anticipates the following:

- Pouring concrete for the stem walls on the arch pipe at station 36+22.77.
- The installation of another 20 ft section of 144-inch culvert at station 21+00.
