Dear Mr. Shifflett,

Petersburg National Battlefield staff has reviewed the Lee Avenue Gate- Plans for Public Review. We find that there will be no negative impacts on the park. There will be a beneficial impact on the park in that Fort Lee traffic will enter and exit the post more smoothly and have less impact on visitors and staff travelling to the park.

Please call me at (804) 732-0171 x104 if you have any questions about our response, or if we can be of further assistance.

Sincerely

Julia L. Steele

Chief, Resource Management
