APRIL 4, 2016

PROJECT

INFORMATION:

Contractor

**RAZZ Construction,
Inc**

Start Date

April 1st, 2016

Completion Date

May 25th, 2016

Construction

The Hard Creek Bridge Repair project is underway with Razz Construction starting their mobilization operations April 1st. For the past week it has just been pre-construction efforts as well as preparation for temporary road closure. This week will mostly be site establishment with heavy construction operations starting in the following week.

Project News

2016 SEASON

- For last week ,preparation work was conducted so Razz can start getting into place for construction work. The county has cleaned up the path leading to the bridge and Razz should have no trouble bringing in equipment to the site.
- The road will be closed starting on the morning of Monday, April 4. Public access will be cut off at the Mountain Lookout Trail, a barrier will be place just after the public parking area. The road closure is expected to be in effect until May 13 and potentially after that day there may be single lane access with traffic control having delays up to 20 minutes. This newsletter will keep you posted on any major changes!
- For this week Razz construction will continue to mobilize equipment as well as establishing SWPPP and bringing in the components of the new bridge.
- Lastly, as a heads up the existing bridge is scheduled to be completely removed in the April 10th - April 16th time frame.
