Workflow 11: Topsoil Summary

1. *Copy the station range data from the Grading Summary. Highlight the columns>Right Click>Copy.*

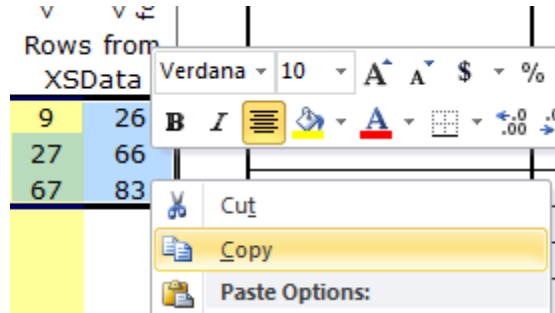

Fig. 12-26: Copy station ranges

2. *Paste the station range information in the "conserved topsoil" worksheet. The topsoil stripping in cuts and the topsoil stripping under fills column are linked to the "XSData" worksheet.*

3. *Input the appropriate pay item number and quantity for the placing conserved topsoil column.*
