

## Workflow 1: Attaching a .ddb File

1. Access the D&C Manager by selecting the D&C Manager icon from the GEOPAK Road tool frame as shown below.

Figure 6.1-1: Access D&C Manager

2. Or by selecting **Applications>GEOPAK>Road>Design and Computation Manager**, as shown below. Once accessed, two dialog boxes appear. The main D&C Manager dialog box and a secondary dialog showing various D&C Manager options.

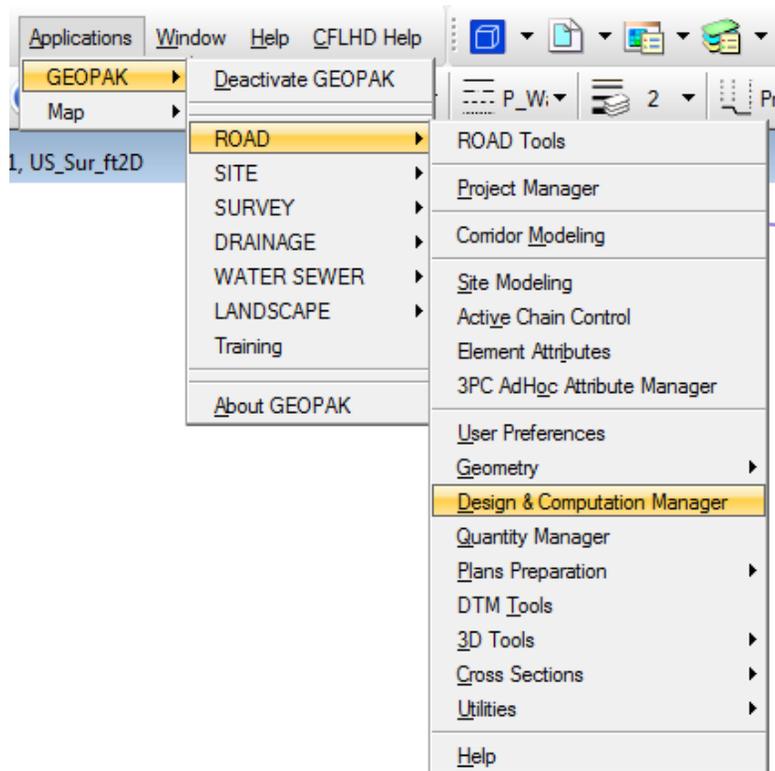

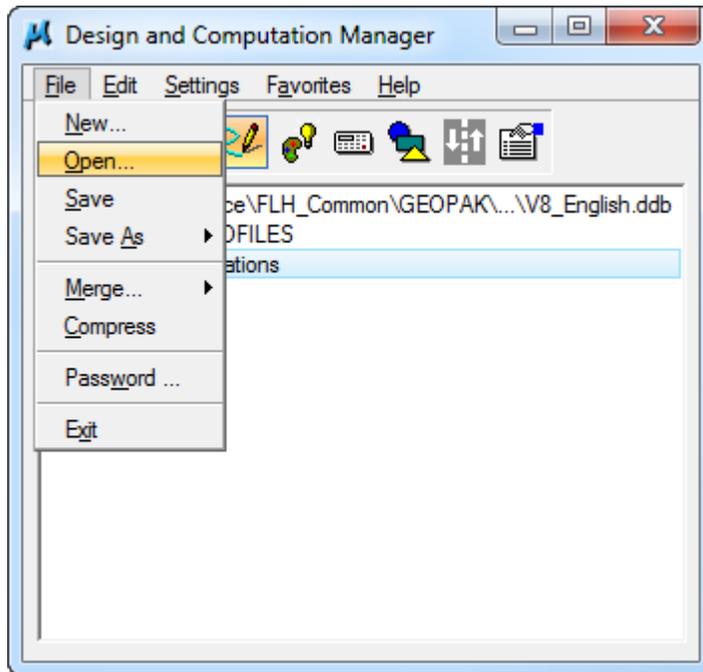

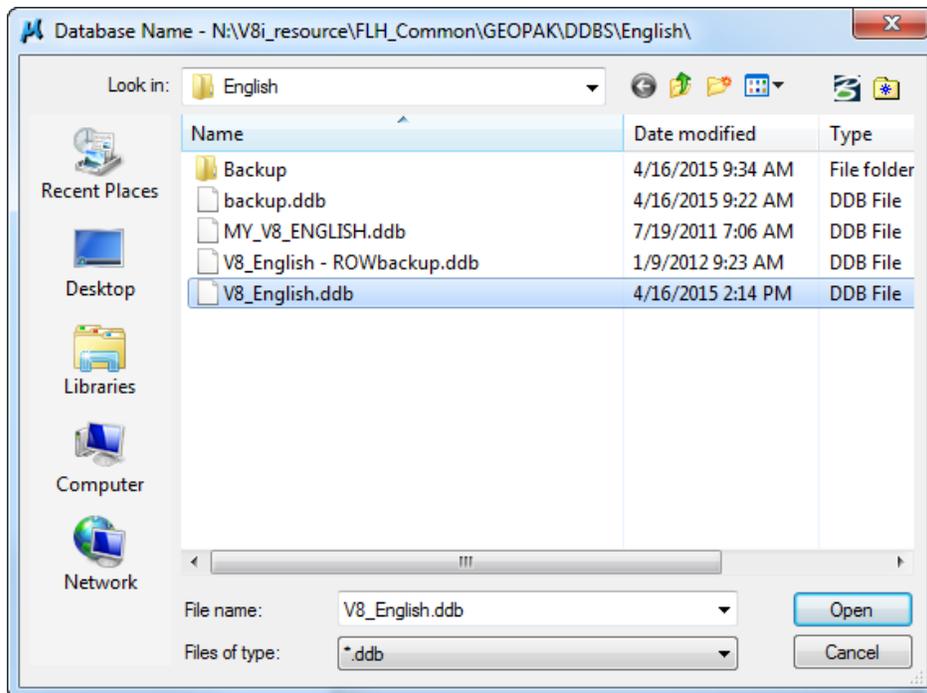

Figure 6.1-2: Access D&C Manager

- From the D&C Manager dialog select *File>Open*.

**Figure 6.1-3: Open Database**

- Select the *.ddb* file specific to the units of the current project from the *DDBS* directory.

**Figure 6.1-4: Select CFLHD Database**

- Select *OK*, the correct *.ddb* file will now be attached.
