Dimension Style: Feet

NOTE: This sheet is intended to show the text and dimension styles.

Text Style: 010\_Verdana\_Italics\_LT

Text Style: 005\_Verdana\_CC

**NOTES:**

- For periods noted in Table A, pavement may be unmarked if vehicle positioning guides and signing are provided according to this detail. For longer periods/higher ADT or for application of temporary markings with paint or tape, use Detail ET 635-2.
- On curves with radius less than 500 feet, reduce cycle length to 20 feet.
- Use permanent markings plan to determine no passing zones for each direction of travel.
- Repeat R4-1 at 1-mile intervals.
- Repeat W8-12 after each major intersection and every 2 miles for temporary traffic control zones greater than 3 miles long.
- Use the "PASS WITH CARE" (R4-2) sign at the downstream end of a no-passing zone only if a "DO NOT PASS" (R4-1) sign has been installed at the upstream end of the zone.
