CFLHD SUPPLEMENT 4.4.1-1

4.4.1 APPLICABLE DESIGN STANDARDS

Delete the last sentence of the third paragraph and replace with the following:

The AASHTO Guidelines for Geometric Design of Very Low-Volume Local Roads (ADT ≤ 400), 2001 may be used in lieu of the 2004 Green Book when designing local roads or collectors that fit the criteria; however, first consult with either:
  o Highway Design Manager and Project Manager (internal projects) or
  o CFLHD Project Manager (A/E projects).

To fit the criteria, a roadway would need to meet all of the following:
  o Functional classification of local road or collector;
  o ADT less than or equal to 400; and
  o Roadway used primarily by drivers familiar with the road.
