CFLHD SUPPLEMENT 8.1-1

8.1  GENERAL

Add the following:

Refer to the CFLHD Guidelines for Safety-Related Design Procedures for a description of how safety-related design information is gathered and addressed during the project development process in CFLHD. These guidelines provide the following information:

- Safety-related roles and responsibilities of the cross-functional team; and

- Recommendations on basic safety-related improvements to be included in various project types, including Pavement Preservation Projects.
