NOTE:
1. Clean existing surface prior to sealing cracks and seal according to subsections 414.05 and 414.06.
2. Force crack repair materials into cracks to assure adhesion to existing surface.
3. See section 414 for the type of sealant to be used. Follow manufacturer's recommendations for sealing cracks.

\[\text{Screw to } \frac{1}{4} \text{ to } \frac{1}{2} \text{ below existing surface elevation} \]

\[\text{Fill crack with minor hot asphalt pavement flush with existing surface} \]
