NOTES:
1. Install flared W-beam guardrail terminal according to the manufacturer’s recommendations. See manufacturer's drawings for other details.

2. Construct the terminal grading as shown in the stacking notes or model. If no stacking notes or model is provided, construct grading as shown and according to the manufacturer's recommendations.

3. For design purposes, the length of need is assumed to begin as shown. Verify the length of need with the manufacturer of a specific product. Adjust grading as necessary to install the flared terminal according to the manufacturer's recommendations.

4. Pave widened shoulder on both ends of guardrail runs when indicated in the plans.

5. Install a reflectorized object marker on the impact head.

6. Construct a 1V/4H or flatter slope outside of the guardrail terminal grading extent where practical.
