1. Use the Type A, block-out, system for median guardrail.
2. Use weathering steel for all structural steel and fastener hardware as specified.
3. Place a terminal section (See Standards 617-61 and 617-62) on both approach and trailing ends of median barrier installations.
4. Use no more than 3 short guardrail posts in a row.
5. In areas where the rail face is offset a minimum of 20-feet from the edge of travel lane, a maximum approach shoulder slope of 6:1 may be used.
