

NOTES:

1. Locate and set sign height according to the "Manual on Uniform Traffic Control Devices for Streets and Highways" (MUTCD), latest edition.
2. Use wood battens bolted to post at vertical spacings not to exceed 30 inches. See Detail E633-04.
3. Use double posts if W is over 3 feet.
4. For sign punching details, see the blank standards in the "Standard Highway Signs and Markings" as specified in the latest edition of the MUTCD.
5. Refer to Detail E633-01 for sign mounting details.
