NOTE:
1. For periods noted in Table A, pavement may be unmarked if vehicle positioning guides and signing are provided per this detail. For longer periods/higher ADT or for application of temporary markings with paint or tape, use Detail ET 635-2.

2. On curves with radius less than 500', reduce cycle length to 20'.

3. Use permanent markings plan to determine no passing zones for each direction of travel.

4. Repeat R4-1 at 1 mile intervals.

5. Repeat W8-12 after each major intersection and every 2 miles for temporary traffic control zones greater than 3 miles long.

6. Use the "PASS WITH CARE" (R4-2) sign at the downstream end of a no passing zone only if a "DO NOT PASS" (R4-1) sign has been installed at the upstream end of the zone.
